OBJECTIVES

Being a senior student majoring in E-Commerce at UIT-VNU, and I've developed a strong interest in the psychological side of digital platforms. After spending time building practical projects with Flutter and Firebase, I realized I want to move beyond just technical execution to understand the "why" behind user actions. I am particularly interested in exploring influencer marketing and social commerce—areas

Japanese Language & Culture

PORTFOLIO

Futurepharm.vn (Deployment & SEO)

https://github.com/ThinkingT1/Dynamic-Electronic-Devices-E-commerce-Homepage-Mobile-App

Description: Developed a cross-platform mobile e-commerce prototype for electronic devices. Responsible for architecting the frontend UI/UX using **Flutter**, specifically the Home, Cart, and Checkout modules. Implemented dynamic state management for product filtering (Phone/Laptop/Audio) and integrated **Firebase Cloud Firestore** for real-time data retrieval. Utilized an AI-assisted development workflow to accelerate Git version control operations and debug complex widget trees.
